GREENVILLE JURISDICTION:

GREENVILLE SCHOOL AND INDIANS OF BUTTE, PLUMAS, SIERRA AND YUBA COUNTIES

Department of the Interior

United States Indian School and Agency

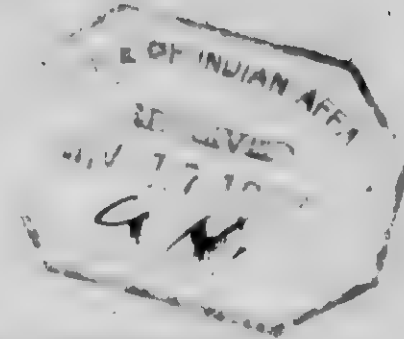

Greenville, California

Id. - 1740.  
All  
Census, 1917.

EDGAR K. MILLER,  
SUPERINTENDENT AND SPECIAL DISBURSING AGENT

November 15, 1917.

The Honorable  
Commissioner Indian Affairs,  
Washington, D. C.

Sir:

I have the honor to herewith trans-  
mit copy of our census, as requested in letter of  
October 24, above reference. This matter was left  
with the clerk to attend to and during my absence  
from this office, owing to the fact that we are  
without any agency help whatever and our work is  
several times that we are able to do, was overlooked.

I regret the delay.

Owing to the fact that we are fur-  
nished no agency help at all it is absolutely im-  
possible for this office to furnish a yearly census.

Very respectfully,

Edgar K. Miller  
E. K. M.

1916

Presumably

Annual Report--21.

General.

So far as I can learn, for the first time in the history of this agency and school there was a thorough census of all Indians of the jurisdiction made this past year. The census covered the entire jurisdiction--Plumas, Butte, Sierra and Yuba counties --and was made by a member of the Digger tribe who knows the country and his people. I can vouch for the complete accuracy and completeness of this census.

At present the jurisdiction Indians are divided by counties as follows:

Sierra County	1
Yuba County	33
Butte County	244
Plumas County	346
Total	624

Their division by tribes:

Nalla Walla	1
Uki	2
Washoe	2
Concow	3
Digger	616
Total	624

It will be seen that the most of these Indians are in Plumas County. All the business of the Agency, or the greatest part of it, is confined to the Indians of Plumas county.

Few of these Indians outside of Plumas county have lands or other business which would connect them with this office outside of the fact that they are classed as Indians. There are two land districts in this jurisdiction. Butte, Yuba and part of Plumas and part of Sierra counties are in the Sacramento Land District. The most of Plumas and part of Sierra is in the Susanville Land District.

There are but seven Indian allotments and homesteads, outside of the forest, in the Sacramento Land District. Many Indians who have lived in the Forest reserve when the land was taken into the forest are not trying to get land under the act of June 25, 1910, and I have taken this matter up and the prospects are good for these Indians to all get land. I have succeeded in settling a number of these forest allotment

cases and that is about all the Indian business I have outside the confines of this county. Most the Indians in Butte, Sierra and Yuba counties live like whites, are mostly in the town, are self-supporting, come under and seem to obey the laws of the State, vote and are taxed where they own property and are to every appearance and effect citizens if any Indians can become such. They do not keep in touch with this office, do not want Government supervision and I believe should not have it only when they may come here for advice and moral assistance.

For this reason I recommend and suggest to the Honorable Commissioner and the Indian Office that the Indians of Butte, Sierra and Yuba counties be alienated from this office so far as supervision is concerned and the work of the office--Greenville Indian Agency--be confined, henceforth, to the Indians of Plumas county alone and that the Roster be so changed to this end.

There are about 160 allotments and homesteads of Indians in Plumas county. The lands are in bad shape. Many hearings have to be held. Much land has to be sold. New homes and agricultural plots should be provided for the Indians who should be encouraged to settle permanently and get in gardens and raise enough fruit and hay for their home consumption. Many old and indigent Indians should be benefitted by sale of land or timber where now they simply eke out a livelihood through the charitable help of relatives. Much timber should be sold and the old folks supported properly in their old age. Many places should be improved with money now tied up in timber and other land because of the fact that heirs are undetermined. Many leases should be properly made. There are many cases of trespass that have to be settled. Lands have to be surveyed. Many Indians do not know where their lines run. Most these Indians are good workers and self-supporting and with such assistance as I suggest here, would be put in fine shape and be made independent of charity and a credit to the state. This work will take the undivided attention of the force here if the office put two more good clerks here to assist in the good work. This should be done.

Many of these Indians Valley-Plumas County--Indians have no lands and are asking for lands, just a little to make a home on. This is an important problem here.

As there is no good in having the territory designated as at present; as there is great expense in taking and keeping up a census every year of the Indians in Butte, Sierra and Yuba counties; as these Indians are to all purposes and intent citizens of the state, I recommend that an order be issued by you to the fact that hereafter this jurisdiction will be confined to the Indians of Plumas county. This will cut down the work here and cut off the expense of trying to keep Indians attached to this office who really are antagonistic to any such purpose and action and who are perfectly able to care fully and completely for themselves.

The success with the school this year has been beyond my most sanguine expectations. We have had it filled to its capacity since the improvements were made. Our enrollment in June was 98 and could have easily been made higher if funds and space permitted. We have been crowded very much to care for those we carried here.

If I get the new school building I expect to carry 125 the first year after it is built. I believe there will be no trouble to carry 150 students here in two years. I have many applications and there will be positively no trouble to fill the school with desirable students at all times. The improved conditions of the plant and the good results attained by the employee force is attracting favorable attention and the school is becoming known throughout a greater territory so that there will be no need to worry about the student proposition. I turned away students the past year and this fact gives us the opportunity to be more careful about the kind of students we take in. When I came here the age minimum was four years; I raised it to seven. Every student will be properly enrolled and for a period of five years unless he can finish the sixth grade in three.

Very respectfully,

(Signed) Edgar T. Miller.

Oct 24, 1917

Mr. F. Miller,  
Supt. ~~Manville~~ ~~Indian~~ School.

My dear Mr. Miller:

Your Annual Report for 1917 shows a population of 629 Digger Indians under your supervision, and yet according to the files of this Office, no census for the year has been received.

In this connection your attention is invited to Section 9 of the Act of July 4, 1884 (23 Stat. L. 98), which requires that Superintendents in charge of Indian reservations submit annually a census of all Indians under ~~the~~ <sup>their</sup> jurisdiction.

The Office is making special effort this year to secure a complete census of all Indians under Federal supervision.

In view of these facts, the Office requests you to prepare a list (arranged alphabetically by families) of all Indians under your jurisdiction, on Form

5-128, and submit the same  
not later than November 5, 1917

Very truly yours,

Asst. Comdr.

copy  
of  
Indian Service,  
Greenville, Cal.

Received  
Nov. 12, 1919  
File No. 97314.

Nov. 7, 1919.

Commissioner of Indian Affairs.

No census has been taken of the old Greenville jurisdiction or of the Roseburg jurisdiction since 1916. If that census will do me will copy it as soon as possible.

One thinks it would not be best to attempt taking a census for the following reasons:

1. It would take several thousand dollars and at least three extra men, while we have allotted for field expense but \$380 for the entire year.
2. 26,000 miles of territory are very mountainous covered with snow with the Indian living in accessible places. A census should be made by officials like Dr. Mitchell or the census Bureau men who have the time and money for it (see my letter of March 1915). We have but two clerks and should not attempt a census.

(2) ~~copy~~ Edgar N. Miller.
